CARE AND CLEANING

For optimum care and cleaning please read the following instructions and recommendations.

Cleaning instructions

Brush off dirt before it becomes embedded in the fabrics and wipe up spills or clean quickly after a stain appears. The quicker you clean spills and stains, the easier they can be removed.

Fabric can be spot washed by sponging briskly with a soapy solution of natural soap in lukewarm water. Rinse thoroughly and allow to air dry.

For stubborn stains and or mildew, chlorine bleach can be added to this solution it will not affect the color of the fabric.
